RE: Comments: Draft (August 5, 1998)

"Developing a Draft Preferred Program Alternative"

Dear Mr. Snow,

These comments are but a few of those questions raised by the Draft
"Developing a Draft Preferred Program Alternative".

The time to develop these thoughts was short - July 31 issuance - August 5 receipt - to August 11 deadline for *comments to be considered for the next revision*. I discussed the document today with Margit Aramburu, Executive Director of the Delta Protection Commission. She had not received a copy as of this morning. (August 10).

Mr. Snow, we have ongoing concerns that these Draft documents are being developed and circulated without ample time for public review.

These comments are being FAXED to you. Hard copy will follow by mail. Further comments will be developed in writing, and submitted as soon as possible. We hope - no we expect - that these questions and concerns will be answered in full and in writing by the CALFED staff.

Sincerely,

Bill and Rogene Reynolds
